WATCHING YOUR WAIST LINE? FRESH PEARS ARE LOW IN CALORIES

FRESH HOME GROWN SPINACH 2 for 9^c
GARDEN GREEN... EXTRA FOOD VALUE LARGE BUNCHES

GEORGE A. BRADFORD

Bradford Makes First Bid for Public Office

George A. Bradford, a resident of Torrance for about 38 years and president of the manufacturing firm that bears his name, is among candidates seeking election to the city council here in April.

A native of River Rouge, Mich., Bradford came to Long Beach when a year old and moved with his parents to Torrance a short time later. His father farmed last east of Torrance for many years, land that is now the site of Harbor General Hospital.

Bradford received all of his elementary and secondary schooling here, graduating from Torrance High School with the Class of '35. He continued engineering studies at UCLA, Stanford, and the University of California, emerging as a licensed mechanical engineer.

Important positions he has held as an engineer include the post of general superintendent of the old Los Angeles Shipyards, general manager for West Coast Shipbuilding, and port engineer for Hilcone Steamship Co. While with Hilcone, he had charge of operations and sailings of the firm's 58-tanker fleet.

As a consulting engineer for Time Oil Co. he set up a worldwide tanker organization which later became a subsidiary of that company.

After serving as the chief mechanical design engineer for Douglas Aircraft at Long Beach, Bradford founded his own manufacturing firm in Torrance and has since specialized in custom design of machinery and equipment for industrial and aircraft manufacturing firms.

Bradford is a member of Torrance Masonic Lodge 447, Redondo Royal Arch Masons Chapter 101, San Pedro Commandry, and the Al Malaikah Temple of the Shrine.

He is a past president of the Torrance Optimist Club, and serves on the board of directors of the Torrance Chamber of Commerce. He was chairman of the city's float committee which directed the campaign to the city's award-winning float in the Tournament of Roses last Jan. 1.

He has been an active campaigner for the Community Chest, YMCA, and other community organizations.

"Torrance faces many new problems in the coming four years, and there is a need for leadership in our city with the tremendous commercial and industrial development which is now under way," he said.

"The council must face the fact that the residents expect its elected representatives to offer constructive policies and carry through on such things as the library, neighborhood parks, and streetlighting.

"Because I want to see that we get good city government and that all the people will have fair representation that I have become a candidate for election," he concluded.

GLASS INGREDIENT
Magnesia is used sometimes as a lime substitute in the manufacture of certain kinds of glass products.

Girl Serves On Chamber Post for Day

Miss Rigis Stevens, Narbonne High School Girls' Day chairman, served as manager of the Lomita Chamber of Commerce, Tuesday, as part of area-wide Girls' Day celebration.

The regular chamber manager, B. Kenneth Gibson, Thursday attended a meeting planning an "Airport Day" for the Torrance Municipal Airport and will report to the chamber's airport committee on plans. Many Lomitanas have protested noise and possible threats to safety from the airport.

Ed Beaty, manager of the Arcadia Chamber and immediate past president of the California Chamber Managers, will be speaker at the March 27 meeting of the chamber, discussing, "How the Chamber of Commerce Can Be of Service to a Small Community." District Attorney William B. McKesson, who was originally scheduled to speak, had to cancel the appointment because of a date conflict.

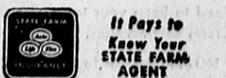

Plans are being made to move chamber offices to larger quarters at 24814 Norbonne Ave. by April 1.

BURY YOUR AUTO ACCIDENT WORRIES
